From his friend, A. Caperton Braxton.

When Jerome opened the package he was almost overcome. He knew that the bir kindly man had been fond of him, but he had hardly hoped that he would be remembered during the lingering illness which Mrake pit as long as I live," he said yesterday, "and give it to my children, if I ever have any. You see, I am only twelve now."

It was late one afternoon when Mr. Braxton was leaving his office in the Mutual Building that he called to Jerome to bring him a paper. As sometimes happens with even the wealthlest men, the lawyer discovered that he had no small change in his pocket. The newsboy trusted him willingly, and Mr. Braxton gave him his card. Every afternoon thereafter Mr. Braxton bought his papers from Jerome, paying him 25 cents apiece for them. The habit was continued as long as the great lawyer was in Richmond, and the two became filled with more than a friendly intimacy. Jeromo confided ali his joys, sorrows and troubles in his friend, and Mr. Braxton was as ready with material assistance as with advice. Last Christmas he took Jerome to a clothing store and bought him a sult of clothes, hat and gloves, "and other things," said Jerome. When they parted a dollar bill was thrust into

the boy's hand, and he was the happiest of all the newsboy tribe. Jerome is a pupil at the Elba School, in the first grammar grade. He is one of seven children, and comes third from the first. His ambition, he said, is to be a doctor or a lawyer, and to that end he is saving his pennies. end he is saving his pennies.

Jerome is a familiar figure in front of the Mutual Building and at Ninth and Main Streets. He may be known by his brilliant dark eyes, his ruddy complexion and a smile that is all his own. The other newsboys know him as "Mr. Braxton's friend," and Jerome bears his distinction as one worthy of the friendship bestowed upon him.

Fine Production at the Bijon.

For a stock company without extraordinary stage facilities and an uncommonly large company to venture the presentation of "The Girl of the Golden West" is a very bold undertaking, and therefore, the production of David Belaxo's famous drama offered at the Bijou this week by the Grayce Scott Company is in the nature of an achievement.

Company is in the nature of an achievement.

To a large extent, the success or failure of such a play as this melodrama of the Far West depends upon the fidelity with which the Illusion of surrounding is carried out; in other words, to use the shibholeth of the profession, upon the creation of atmosphere. And, in this respect, it would be difficult to speak too highly of the production of this week. Mr. Berthelet, the director, and Mr. Sackerman, the scenic artist, have worked wonders, and, with Mr. Newing, the manager, they deserve warm praise.

All three of the acts: the first, the Tolka" saloon; the second, the home of the Girl, and the third, the dance hall of the "Polka" are painted and set with careful and artistic attention to detail, the first in particular being practically without a flaw, and the fourth seene, which is really only a picture, is of a character rarely seen in stock—certainly here.

And in keeping with the excellence of the settings is the general stage direction and management. In the best of the road productions, we see but infrequently a scene as well handled as is the storm in the second act. If Mr. Belasco himself had watched that seen last night he, remembering the difficulties under which the management was laboring, would have doffed his hat.
